This is my first litter of Kromfohrlanders and I am especially pleased with the breeding. I also raise working Border Collies, but I am so honored to be a part of the preservation of this rare breed. I fell in love with them at a breed show in Richmond, VA. I was on the opposite side of the room, but I locked on to them and was hooked. I met Mira Hill Jones and her handsome dog Boo. I knew I wanted his input in my breeding lines and we are so happy to have Birkenstrand's Mai Kai Big Bamboo (Boo) as the sire of this litter. Boo has an outgoing easy nature, outstanding structure and a lovely confidence in the way he moves. Boo has competed in rally, agility, scent work & conformation. I'm so blessed to have Mira as a friend.

The Kromfohrlander community is very helpful and caring. I encourage all of you to join the Kromfohrlander Club of America. There is also the Kromfohrlander North America Facebook group.

I am available to you all anytime and please call or text with any questions. Please complete this application, along with your deposit and we will begin this adventure.
